MARK THE DATE!

Dear Colleagues,

we proudly announce the International MEDICHEM Congress
2017 to be held in Vienna, Austria, in September 2017.

Please mark the following dates in your calendars:

📅 Thursday, September 14th, 2017:

Opening Ceremony at 8.30 am

📅 Thursday, September 14th, 2017,
to Friday, September 15th, 2017:

7cb[fYgg'H Ya Y. Occupational carcinogens

The congress mainly focuses on recent human literature of
occupational carcinogens and exposures scenarios. Although
some hazards may have been removed others may
remain and the estimated
number of unreported cases
of occupational cancers due
to occupational literature still
continues to be high. Recent
ILO estimates indicate that
approximately 666.000 fatal work-related cancers occur every
year. In addition, the potential contribution of cancer risk due
to exposure of other seldom-considered work-related factors
such as shift work will be addressed.
